Mariposa Deodorant For Sale

Are you currently making natural skin care products? Perhaps you're interested in expanding your line with a **natural deodorant that works**?

Or are you in an alternative health field - massage, acupuncture, homeopath, etc - and wanting to create and sell products?

If this sounds like you, please keep reading.
Not you? If you think you may know someone interested, read on. It could be worth your while.

Mariposa Deodorant consists of only six ingredients: coconut oil, shea butter, baking soda, arrowroot starch, tea tree oil and vitamin E. It has none of the toxic ingredients that are found in commercial products. Most of all, it works. It has been tested in the Summer heat of Texas, New Mexico, and Arizona.

Mariposa Deodorant was started in 2013. Since then, it has developed quite a following. Sadly, I developed an allergy to one or more of the ingredients. This has made it awkward for me to sell it. Rather than just close, I'm offering the business for sale.

Could you, or someone you know, be the next owner?
